WIRELESS SIMPLICITY

M170 is ready when you are. Simply plug the receiver into a USB port on your device to start working in seconds. The small size and smooth cursor control make it great for tight workspaces and busy desks. Enjoy the world of wireless!

KEY FEATURES

 Hands using rose mouse next to a laptop

ANY HAND, ANYWHERE

The compact, wireless M170 has a fully ambidextrous design that easily fits within your laptop bag, so you can get to work anywhere—whether you're left- or right-handed.

[GET M190 FOR LARGER HANDS >](#)

PLUG & PLAY WIRELESS

Connect in 3 seconds¹¹ and get up to 10 meters¹² of wireless freedom with a strong, reliable USB receiver. That means no delays, no dropouts. M170 is compatible with Windows, macOS, Chrome OS and Linux and works instantly when you plug the USB receiver into your computer or laptop.

EASY NAVIGATION, SMOOTH CONTROL

Easy navigation thanks to a controlled line-by-line scrolling and optical tracking. The optical sensor gives you smooth and accurate cursor control on almost any surface. That means accurate mouse movements with no more annoying missed clicks.

QUALITY YOU CAN RELY ON

The mouse is built with the same high quality standards that have made Logitech the global leader for mice and keyboards¹³. Durable and reliable, M170 also works up to 12 months¹⁴ without changing batteries thanks to the on/off switch button and auto-sleep power-saving mode.

BETTER THAN A TOUCHPAD

Using a mouse is more ergonomic than a touchpad¹⁵. The compact shape and wireless capability lets you work comfortably —at home, the office, or anywhere in between.
